CSI Client Advisory 07-2022

SUBJECT: Access to Client Advisories and Arrival Checklists

Pursuant to the recent acquisition of CSI by Gallagher Marine Systems (GMS), we are continually pursuing ways to streamline our processes and provide you the most up to date resources with 24/7/365 personal access. With that said, beginning June 1, 2022, we will combine both our Client Advisories and Arrivals Checklists into a single stream source via GMS.

With this change, you will be able to access Client Advisories and Arrivals Checklists via the GMS website at: [Welcome to GMS - Gallagher Marine Systems](#). Once you reach the site, you will proceed to the pull-down tab entitled 'Publications', where you can select either option. You will then be asked for a password, which we will provide to you under separate correspondence which can be shared with your staff and masters.

In addition to your 24/7/365 access, freshly published Client Advisories as well as the annually updated Arrivals Checklists will be mailed to our client distribution lists. If you already receiving this, you will continue to receive both of these as they are released. If you have additional persons that should be on our distribution, please provide their name, title and email address to info@chgms.com so we can make the adjustments to our distribution list.

In the near future, we will also be transitioning your Vessel Response Plans from the CSI format to the GMS format. Once this transition is complete, you will be provided a unique username and password to access your company's plans, documents and all GMS/CSI deliverables via the GMS Client Portal (Portal), which is also found in the pull-down tabs of the hyperlink provided above. Separate detailed instructions will be provided when this process begins and is completed. The result of this transition will enable you direct access to all GMS/CSI deliverables and will allow you to use the Portal to submit and communicate changes and/or updates to your plans.

Lastly, we kindly ask for your cooperation in NOT sharing the general GMS website password OR your unique Portal password with anyone outside of your organization, as this is proprietary information and is designed solely for your consumption as a compliance partner.

Moving forward, future advisories will be delivered on GMS letterhead. Therefore, this Advisory will constitute the final CSI Client Advisory. For the immediate future, you will still be able to access 'Legacy CSI Advisories' by visiting the same pulldown above.

As always, should you have questions or concerns, please do not hesitate to reach out to us anytime at csi@compliancesystemsinc.com.
